ACI 318-11 was adopted as a standard
of the American Concrete Institute
May 24, 2011, to supersede ACI
318-08 in accordance with the
Institute ' s standardization
procedure and was published August
2011. A complete metric companion
to ACI 318 has been developed,
318M; metric equivalents are
provided only in Appendix F of this
document.

318-11 Building Code Requirements for Structural Concrete ...

Accelerated curing is any method by which high early age strength is achieved in concrete. These techniques are especially useful in the prefabrication industry, wherein high early age strength enables the removal of the formwork within 24 hours, thereby reducing the cycle time, resulting in cost-saving benefits. The most commonly adopted curing techniques are steam curing at atmospheric ...
