Powerpaola's North American debut traces the lives of young women during Columbia's violent drug cartel warfare era of the 1980s-90s. "Powerpaola has a gift for expressing an entire world with a thin black line, building up textures and details that are a joy to get lost in. In "Virus Tropical," her memories of a unique family life are so vividly portrayed that you feel like you are

living through all the laughter, joy, tears and door-slamming right along with her. It's a treat of a book." Sarah Glidden, author of "How to Understand Israel in 60 Days or Less" Powerpaola's "Virus Tropical "uses a series of vignettes to transform the simplicity of middle-class family life into a thought-provoking narrative that would have been inconceivable prior to Colombia's sexual revolution. Focusing on the lives of a family of women in the eighties through the nineties, Powerpaola's tale highlights the excitement, danger, and struggles of a country in the midst of radical change.

Powerpaola was born in 1977 in Quito, Ecuador, and, at a young age, moved to Cali, Colombia. Years later, she and her friends founded a collective space of expression, Taller 7, in Medellin and was granted a scholarship to develop her art in La Cite Internationale des Arts in Paris, where she adopted the name Powerpaola. She is currently working on an animated adaptation of "Virus Tropical "and lives in Buenos Aires, Argentina. "

End of the Rainbow is a savagely funny drama featuring a glorious ensemble of Judy Garland hits and infused with the glamour and the melancholy of stardom. "Every note she sings, every racket she makes, every tear she sheds, every joke she cracks, every pill she pops - is conveyed with alarming honesty. Cocaine is the story of a young man who runs off to Paris to seek fame, fortune, and fun. Pitigrilli's classic novel charts the comedy and pathos of a young man's tragic trajectory. Tito Arnaudi is a dandified hero

with several mistresses he juggles. A failed medical student, Tito is hired as a journalist in Paris, where he investigates cocaine dens and invents lurid scandals and gruesome deaths that he sells to newspapers as his own life becomes more outrageous than his phony press reports. Telling of orgies and strawberries soaked in champagne and ether, Tito lives with intensity as he pursues his Italian girlfriend Maud (née Maddalena) and wealthy Armenian Kalantan, who insists on making love in a black coffin. Provocatively illustrated, filled with lush, intoxicating prose, Cocaine is a wicked novel

about the Lost Generation in 1920s Paris. Dizzy and decadent, Pitigrilli leaves nothing unexplored as he presents astonishing descriptions of upper class debauching -- strawberries and chloroform, naked dancing, cocaine aplenty, and guests openly injecting morphine. Despite its wit, Cocaine is a sobering account of the dangers of drugs and sexual obsession. Tito happily trades in his twilight years for moments of wicked ecstasy.

American frontier, the astonishing story of real-life trapper and frontiersman Hugh Glass. The year is 1823, and the trappers of the Rocky Mountain Fur Company live a brutal frontier life. Hugh Glass is among the company's finest men, an experienced frontiersman and an expert tracker. But when a scouting mission puts him face-to-face with a grizzly bear, he is viciously mauled and not expected to survive. Two company men are dispatched to stay behind and tend to Glass before he dies. When the men abandon him instead, Glass is driven to survive by one desire: revenge. With shocking grit and

Invertebrates fills this gap by providing a short updated guide to the invertebrate phyla, looking at their diverse forms, functions and evolutionary relationships. This book first introduces evolution and modern methods of tracing it, then considers the distinctive body plan of each invertebrate phylum showing what has evolved, how the animals live, and how they develop. Boxes introduce physiological mechanisms and development. The final chapter explains uses of molecular evidence and presents an up-to-date view of evolutionary history, giving a more certain definition of the relationships
