Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Consumer Guide takes the time to evaluate the goods most people buy most often--from camcorders to refrigerators to cars--ranking each product for durability, performance, efficiency, design, price, and value. As always, advertising is not accepted, so the reviewers are unbiased and accurate.

A young Cro-Magnon boy living 15,000 years ago in southeastern France is initiated into manhood by his clan and sets off on a journey to trade his valuable fire rocks for an ivory spear thrower.

"This Long Winter contains poems that are meditations on life in the rural world: reflections on hard work, aging, and the ravages of time-erasures that Sutphen attempts to ameliorate with her careful attention to language. These poems move us from delight in precise description to wisdom and solace in the things of this world. Noticing its details, the snowflakes, clementines, the lilies, the cardinal's call, is the key for this momentary stay against time that comes at us in a rush. The many mirror images in these poems point to the complexity and hard, loving work of really living in the world. And now, in the deep mid-winter, deep in the enforced slowdown of this pandemic, we need these poems to help us know what to do with the past and how to live and how to love"--

Based on the European Welding Engineer (EWF) syllabus Part 3 - Construction and Design - this book provides a clear, highly illustrated and concise explanation of how welded joints and structures are designed and of the constraints which welding may impose on the design. Written for both students and practicing engineers in welding and design, the book will also be of value to civil, structural, mechanical and plant engineers.
